Thanks Barb,

Nice to meet you today Dan. I have relayed to Tribal Council the need/benefit of sharing our data and information. As we are EPA grant funded, almost all our data goes to WQX/STORET. I believe Council is receptive and will provide support.

Attached is the SUIT Water Quality sample plan (brief) for the spill response.

My SUIT contact is

Curtis Hartenstine

Southern Ute Indian Tribe

Water Quality Program Manager

970-563-4705

charten@southernute-nsn.gov

Thanks for both of your efforts.

Have a good weekend,

Curtis

Dan, maybe by now you have met Curtis or a representative from the Southern Ute Tribe. Curtis meet Dan, Dan Curtis. Curtis, I shared w/ Dan you had placed 2 ph, conductivity and temp continuous reading devices in the Animas. Dan would like the information so I am connecting you both.

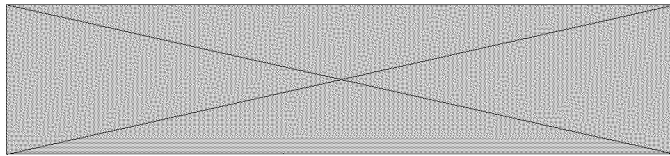

I hope, Peter Butler or all of us collectively will get together and share all our information, it will tell a more complete story.

Personal Email/Ex. 6 Curtis not sure if you had SUT email, this is what I have been using.
